

ISO/TS 80004-12:2016-03 (E)

Nanotechnologies - Vocabulary - Part 12: Quantum phenomena in nanotechnology

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Terms describing (or related to) general quantum concepts	1
3	Terms related to basic quantum effects	3
4	Terms describing size-dependent quantum effects	4
5	Terms related to structural organization	5
6	Terms associated with quantum effects	6
Annex A (informative) Some current terms in classical and quantum physics		8
Annex B (informative) Mapping between terms and some applications and products in nanotechnologies		9
Annex C (informative) Index		11
Bibliography		12
