Nanotechnologies - Vocabulary - Part 12: Quantum phenomena in nanotechnology

| Contents | | Page |
|---|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 Scope | | 1 |
| 2 Terms describing (or related to) general quantum concepts | | 1 |
| 3 Terms related to basic quantum effects | | 3 |
| 4 Terms describing size-dependent quantum effects | | 4 |
| 5 Terms related to structural organization | | 5 |
| 6 Terms associated with quantum effects | | 6 |
| Annex A (informative) Some current terms in classical and quantum physics | | 8 |
| Annex B (informative) Mapping between terms and some applications and products in nanotechnologies | | 9 |
| Annex C (informative) Index | | 11 |
| Bibliography | | 12 |
