## Solid biofuels - Conversion of analytical results from one basis to another

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | iv          |
| Introduction ..... |  | v           |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....   | 1           |
| 3                  | Symbols and abbreviated terms .....  | 1           |
| 4                  | Principle .....  | 2           |
| 5                  | Calculations for analyses of solid biofuels .....                          | 2           |
| 5.1                | General .....  | 2           |
| 5.2                | Extra calculations for hydrogen, oxygen, and net calorific value .....     | 2           |
| 5.2.1              | Hydrogen .....   | 2           |
| 5.2.2              | Oxygen .....   | 2           |
| 5.2.3              | Net calorific value .....  | 3           |
| 5.3                | General formulae for the conversion from one basis to another basis .....  | 3           |
|                    | Annex A (informative) Tools for integrity check .....                      | 4           |
|                    | Annex B (informative) Tables with units and conversion factors .....       | 7           |
|                    | Annex C (informative) Guideline for the use of validation parameters ..... | 8           |
|                    | Bibliography .....   | 10          |
