## Rubber - General procedures for preparing and conditioning test pieces for physical test methods

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | v           |
| 1               | Scope .....  | 1           |
| 2               | Normative references .....   | 1           |
| 3               | Terms and definitions .....  | 1           |
| 4               | Identification and record keeping .....                                  | 1           |
| 5               | Standard laboratory conditions .....                                     | 2           |
| 5.1             | Standard laboratory temperature .....                                    | 2           |
| 5.2             | Standard laboratory humidity .....                                       | 2           |
| 5.3             | Other conditions .....   | 2           |
| 6               | Storage of samples and test pieces .....                                 | 2           |
| 7               | Preparation of test pieces .....   | 3           |
| 7.1             | Test piece thickness .....   | 3           |
| 7.2             | Thickness adjustment .....   | 3           |
| 7.2.1           | General .....  | 3           |
| 7.2.2           | Techniques .....   | 3           |
| 7.2.3           | Equipment for test piece preparation .....                               | 4           |
| 7.3             | Test piece cutters .....   | 5           |
| 7.3.1           | General .....  | 5           |
| 7.3.2           | Fixed-blade cutters .....  | 5           |
| 7.3.3           | Replaceable-blade cutters .....  | 6           |
| 7.3.4           | Rotary cutters .....   | 6           |
| 7.4             | Maintenance of cutters .....   | 6           |
| 7.5             | Preparation of test pieces by moulding .....                             | 6           |
| 7.5.1           | Test sheets .....  | 6           |
| 7.5.2           | Test pieces .....  | 6           |
| 7.5.3           | Thermoplastic materials .....  | 6           |
| 7.6             | Preparation of unvulcanized test pieces .....                            | 7           |
| 8               | Conditioning .....   | 7           |
| 8.1             | General .....  | 7           |
| 8.2             | Conditioning times for subnormal or elevated temperatures .....          | 7           |
| 9               | Measurement of the dimensions of test pieces .....                       | 7           |
| 9.1             | Method A -- For dimensions less than 30 mm .....                         | 7           |
| 9.2             | Method B -- For dimensions of 30 mm and up to and including 100 mm ..... | 8           |
| 9.3             | Method C -- For dimensions over 100 mm .....                             | 8           |
| 9.4             | Method D -- Non-contact method .....                                     | 8           |
| 10              | Conditions of test .....   | 9           |
| 10.1            | Duration of test .....   | 9           |
| 10.2            | Temperature and humidity .....   | 9           |
| 10.2.1          | Standard laboratory temperature and humidity .....                       | 9           |
| 10.2.2          | Other test temperatures .....  | 9           |

|               |  |           |
|---------------|--|-----------|
| <b>11</b>     | <b>Test chambers</b> .....   | <b>10</b> |
| <b>11.1</b>   | <b>General requirements for temperature-controlled chambers</b> .....      | <b>10</b> |
| <b>11.2</b>   | <b>Chambers operating at elevated temperatures</b> .....                   | <b>11</b> |
| <b>11.2.1</b> | <b>Chambers with gaseous heat-transfer media</b> .....                     | <b>11</b> |
| <b>11.2.2</b> | <b>Chambers with liquid heat-transfer media</b> .....                      | <b>11</b> |
| <b>11.2.3</b> | <b>Fluidized beds</b> .....  | <b>11</b> |
| <b>11.3</b>   | <b>Chambers operating at subnormal temperatures</b> .....                  | <b>11</b> |
| <b>11.3.1</b> | <b>Mechanically refrigerated units</b> .....                               | <b>11</b> |
| <b>11.3.2</b> | <b>Solid carbon dioxide units (direct-cooling type)</b> .....              | <b>11</b> |
| <b>11.3.3</b> | <b>Solid carbon dioxide units (indirect-cooling type)</b> .....            | <b>11</b> |
| <b>11.3.4</b> | <b>Packaged refrigeration units</b> .....                                  | <b>11</b> |
| <b>11.3.5</b> | <b>Liquid nitrogen</b> .....   | <b>11</b> |
| <b>12</b>     | <b>Test report</b> .....   | <b>12</b> |
|               | <b>Annex A (normative) Conditioning times for rubber test pieces</b> ..... | <b>13</b> |
|               | <b>Bibliography</b> .....  | <b>16</b> |
