## Black oxide coatings on ferrous metal components - Requirements and test methods

<b>Contents</b>	<b>Page</b>
Foreword .....	3
1 Scope .....	4
2 Normative references .....	4
3 Terms and definitions.....	4
4 Designation .....	5
4.1 General .....	5
4.2 Coating methods .....	5
4.3 Heat treatment.....	5
4.4 Supplementary treatments.....	6
5 Ordering details.....	6
6 Procedure .....	7
6.1 Preparation of surfaces.....	7
6.2 Main treatment .....	7
6.3 Drying and supplementary treatment.....	7
7 Testing the untreated coating.....	7
7.1 General .....	7
7.2 Testing the appearance.....	8
7.3 Determining the degree of protection by exposure to the DIN EN ISO 6270-2-CH condensation atmosphere with constant humidity .....	8
7.4 Determining the degree of protection with acetic acid at ambient temperature .....	8
7.4.1 Test solution .....	8
7.4.2 Procedure .....	9
7.5 Determining the degree of protection with acetic acid at ambient temperature .....	9
7.5.1 Test solution .....	9
7.5.2 Procedure .....	9
7.6 Determination of mass per unit area.....	9
7.6.1 Test solution .....	9
7.6.2 Procedure .....	10
8 Test report.....	10
Bibliography .....	11
