ISO 21164:2018 (E)

Metallic and other inorganic coatings — DC magnetron sputtered silver coatings for engineering purposes — Measurement of coating adhesion

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Abbreviated terms

5 Information to be supplied by the purchaser to the manufacturer

6 Test methods for adhesion

- 6.1 Burnishing
- 6.2 Barrel burnishing
- 6.3 Peel test
- 6.4 Bending test
- 6.5 Thermal shock

7 Nano scratch test

- 7.1 General
- 7.2 Scratch test equipment
- 7.3 Specimens
- 7.4 Scratch test parameters
- 7.5 Evaluation
- 7.6 Scratch test report
