

ISO 16793:2018 (E)

Nuclear fuel technology — Guidelines for ceramographic preparation of UO₂ sintered pellets for microstructure examination

Contents

	Foreword
1	Scope
2	Normative references
3	Terms and definitions
4	Principle
5	Procedures
5.1	General
5.2	Sample preparation without mounting
5.3	Sample preparation with mounting, not needing subsequent dismounting
5.4	Sample preparation with mounting, needing subsequent dismounting
6	Apparatus
7	Reagents and consumables
8	Methods
8.1	Sectioning
8.2	Mounting
8.3	Grinding
8.4	Polishing
8.5	Dismounting
9	Etching
9.1	Introduction
9.2	Chemical etching
9.3	Thermal etching
