

# ISO 20601:2018-12 (E)

## Non-destructive testing of welds - Ultrasonic testing - Use of automated phased array technology for thin-walled steel components

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | v           |
| 1               | Scope .....  | 1           |
| 2               | Normative references .....   | 1           |
| 3               | Terms and definitions .....  | 2           |
| 4               | Testing levels .....   | 2           |
| 5               | Information required before testing .....                          | 4           |
| 5.1             | Items to be specified before procedure development .....           | 4           |
| 5.2             | Specific information required by the operator before testing ..... | 4           |
| 5.3             | Written test procedure .....                                       | 4           |
| 6               | Requirements for personnel and test equipment .....                | 5           |
| 6.1             | Personnel qualifications .....                                     | 5           |
| 6.2             | Test equipment .....   | 5           |
| 6.2.1           | General .....  | 5           |
| 6.2.2           | Instruments and display .....                                      | 5           |
| 6.2.3           | Probes .....   | 5           |
| 6.2.4           | Scanning mechanisms .....  | 6           |
| 7               | Preparation for testing .....                                      | 6           |
| 7.1             | Volume to be tested .....  | 6           |
| 7.2             | Verification of test set-up .....                                  | 6           |
| 7.3             | Scan increment setting .....                                       | 7           |
| 7.4             | Geometry considerations .....                                      | 7           |
| 7.5             | Preparation of scanning surfaces .....                             | 7           |
| 7.6             | Temperature .....  | 7           |
| 7.7             | Couplant .....   | 7           |
| 8               | Testing of parent material .....                                   | 7           |
| 9               | Range and sensitivity settings .....                               | 8           |
| 9.1             | Settings .....   | 8           |
| 9.1.1           | General .....  | 8           |
| 9.1.2           | Pulse-echo time window .....                                       | 8           |
| 9.1.3           | Pulse-echo sensitivity settings .....                              | 8           |
| 9.2             | Checking of the settings .....                                     | 8           |
| 9.3             | Reference blocks .....   | 9           |
| 9.3.1           | General .....  | 9           |
| 9.3.2           | Material .....   | 9           |
| 9.3.3           | Dimensions and shape .....   | 9           |
| 9.3.4           | Reference reflectors .....   | 9           |
| 9.4             | Test blocks testing level D .....                                  | 10          |
| 9.4.1           | General .....  | 10          |
| 9.4.2           | Material .....   | 10          |
| 9.4.3           | Dimensions and shape .....   | 10          |
| 9.4.4           | Reflectors in test blocks .....                                    | 10          |

|        |  |    |
|--------|--|----|
| 10     | Equipment checks .....                                 | 10 |
| 11     | Verification of the test procedure .....               | 11 |
| 12     | Weld testing .....                                     | 11 |
| 13     | Data storage .....                                     | 11 |
| 14     | Interpretation and analysis of phased array data ..... | 11 |
| 14.1   | General .....  | 11 |
| 14.2   | Assessing the quality of the phased array data .....   | 12 |
| 14.3   | Identification of relevant indications .....           | 12 |
| 14.4   | Classification of relevant indications .....           | 12 |
| 14.5   | Determination of location and length .....             | 12 |
| 14.5.1 | Location .....   | 12 |
| 14.5.2 | Length .....   | 12 |
| 14.6   | Indication assessment .....                            | 13 |
| 14.6.1 | General .....  | 13 |
| 14.6.2 | Assessment based on amplitude and length .....         | 13 |
| 14.6.3 | Assessment based on height and length .....            | 13 |
| 14.6.4 | Characterization of discontinuities .....              | 13 |
| 14.7   | Evaluation against acceptance criteria .....           | 13 |
| 15     | Test report .....                                      | 14 |
|        | Annex A (informative) Typical reference blocks .....   | 16 |
|        | Bibliography .....                                     | 18 |
