## Rubber, vulcanized or thermoplastic - Determination of volume and/or surface resistivity

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principle .....	2
5	Apparatus .....	2
6	Calibration .....	6
7	Test pieces .....	6
7.1	Form .....	6
7.2	Number of test pieces .....	7
8	Conditioning .....	7
9	Test conditions .....	7
9.1	Temperature and humidity .....	7
9.2	Applied voltage .....	7
10	Test procedure .....	7
11	Expression of results .....	8
11.1	Volume resistivity .....	8
11.2	Surface resistivity .....	8
12	Test report .....	9
Annex A (informative) Electrode materials .....		10
Annex B (informative) Suitable range of test conditions .....		11
Annex C (normative) Calibration schedule .....		13
Annex D (informative) Effective area of guarded electrode .....		15
Bibliography .....		18
