ISO 10143:2019 (E)

Carbonaceous materials for the production of aluminium — Calcined coke for electrodes — Determination of the electrical resistivity of granules

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Apparatus

6 Sampling and preparation

- 6.1 Sampling
- 6.2 Sample preparation calcined petroleum coke
- 6.3 Sample preparation all samples

7 Procedure

- 7.1 Test portion
- 7.2 Setting up the test machine
- 7.3 Determination
- 7.4 Number of determinations

8 Expression of results

9 Precision1 1 ISO 5725:1986, Precision of test methods — Determination of repeatability and reproducibility for a standard test method by inter-laboratory tests (now withdrawn), was used to obtain the precision data.

- 9.1 Repeatability
- 9.2 Reproducibility

10 Test report
