

ISO 10143:2019 (E)

Carbonaceous materials for the production of aluminium — Calcined coke for electrodes — Determination of the electrical resistivity of granules

Contents

	Foreword
1	Scope
2	Normative references
3	Terms and definitions
4	Principle
5	Apparatus
6	Sampling and preparation
6.1	Sampling
6.2	Sample preparation calcined petroleum coke
6.3	Sample preparation all samples
7	Procedure
7.1	Test portion
7.2	Setting up the test machine
7.3	Determination
7.4	Number of determinations
8	Expression of results
9	Precision ¹ 1 ISO 5725:1986, Precision of test methods — Determination of repeatability and reproducibility for a standard test method by inter-laboratory tests (now withdrawn), was used to obtain the precision data.
9.1	Repeatability
9.2	Reproducibility
10	Test report
