DIN EN 1097-2:2020-06 (E)

Tests for mechanical and physical properties of aggregates - Part 2: Methods for the determination of resistance to fragmentation

Contents

Page

European foreword 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Apparatus 8
4.2 Additional apparatus required for determination of resistance to fragmentation by the Los Angeles test method 8
4.3 Additional apparatus required for determination of resistance to fragmentation by the impact test method 10

5 Determination of resistance to fragmentation by the Los Angeles test method 10
5.1 Principle 10
5.2 Preparation of test portion 10
5.3 Test procedure 11
5.4 Calculation and expression of results 11
5.5 Test report 12

6 Determination of resistance to fragmentation by the impact test method 12
6.1 Principle 12
6.2 Preparation of test specimens 12
6.3 Test procedure 13
6.4 Calculation and expression of results 13
6.5 Test report 14

Annex A(normative) Determination of resistance to fragmentation of aggregates for railway ballast 15

A.1 Apparatus 15
A.2 Determination of resistance to fragmentation by the Los Angeles test method 17
A.3 Determination of resistance to fragmentation by the impact test method 19

Annex B(informative) Alternative narrow range classifications 22

B.1 Los Angeles test 22
B.2 Impact test 22

Annex C(informative) The impact tester: Construction, operation and safety requirements 24

C.1 General 24
C.2 Construction 24
C.3 Lifting device 25
C.4 Sample holder 25
C.5 Anvil 26
C.6 Base plate and dampers 27
C.7 Safety requirements and testing 27
C.8 Checking of impact tester 27

Annex D(informative) Checking of the impact tester 36

D.1 Scope and field of application 36
D.2 Checklist 36
D.3 Apparatus and test agents 36
D.4 Procedure 36

Annex E(informative) Precision 38

E.1 General 38
E.2 Los Angeles test 38
E.3 Impact test 38

Annex F(informative) Worked example of calculation of impact value SZ 40

Annex G(informative) Alternative narrow range classification for the Los Angeles test of 16/32 mm recycled aggregates 41

Annex H(informative) Additional sieve for evaluation of the Los Angeles test for railway ballast 42
