

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Abbreviated terms
5	Characteristics to be measured and their measurement methods
5.1	General
5.2	Chemical composition
5.3	Crystallographic components content
5.4	Specific surface area
5.5	Diameter of primary particle
5.6	Crystallite size
6	Sampling and sample preparation
7	Test report
Annex A	(informative) Applicability to chemical compounds and metals
