Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Principle 2

4 Materials 2

5 Apparatus 2

6 Procedure 4
6.1 Gas chromatographic operating conditions 4
6.2 Performance requirements -- Peak resolution 7
6.3 Determination -- Outline of the analysis 8

7 Expression of results 8
7.1 Calculation 8
7.2 Precision and accuracy 8

8 Test report 8

Annex A (informative) Procedure for setting valve timings and restriction setting 9

Annex B (informative) Final time 10

Annex C (informative) Typical precision values 11
