ISO/TS 80004-6:2021 (E)

Nanotechnologies — Vocabulary — Part 6: Nano-object characterization

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions (General terms)

4 Terms related to size and shape measurement

- 4.1 Terms related to measurands for size and shape
- 4.2 Terms related to scattering techniques
- 4.3 Terms related to aerosol characterization
- 4.4 Terms related to separation techniques
- 4.5 Terms related to microscopy
- 4.6 Terms related to surface area measurement

5 Terms related to chemical analysis

6 Terms related to measurement of other properties

- 6.1 Terms related to mass measurement
- 6.2 Terms related to thermal measurement
- 6.3 Terms related to crystallinity measurement
- 6.4 Terms related to charge measurement in suspensions
