DIN EN 17681-2:2022-11 (E)

Textiles and textile products - Organic fluorine - Part 2: Determination of volatile compounds by extraction method using gas chromatography

Contents

Page

European foreword ... 3

Introduction ... 4

1 Scope ... 11

2 Normative references ... 11

3 Terms and definitions ... 11

4 Principle of method ... 11

5 Reagents ... 12

6 Equipment ... 12

7 Sampling ... 13
7.1 General ... 13
7.2 Sampling based on area ... 13
7.3 Sampling based on mass ... 13
7.4 Preparation of test specimen ... 13

8 Procedure ... 13
8.1 Preparation of stock solutions ... 13
8.2 Preparation of internal standard solution ... 13
8.3 Preparation of calibration solutions ... 13
8.4 Extraction ... 14
8.5 Analysis ... 14

9 Expression of results ... 14
9.1 Calibration ... 14
9.2 Calculation of the results ... 15
9.3 Calculation of the sums of certain PFAS ... 15
9.4 Limit of detection (LoD) and limit of quantification (LoQ) ... 15
9.5 Reliability of the method ... 16

10 Test report ... 16

Annex A (normative) **Usable ions and LOQ for PFAS analysis by GC** ... 17

A.1 Using GC-MS/MS ... 17

A.2 Using GC-MS/PCI ... 19

A.3 Using GC-MS/EI ... 20

Annex B (informative) **Interferences with GC** ... 21

Annex C (informative) **Non-regulated PFAS** ... 22

Annex D (informative) **Chromatographic conditions** ... 23

D.1 GC-MS/PCI ... 23

D.2 GC-MS/EI ... 24
