

ISO 23170:2022-06 (E)

Surface chemical analysis - Depth profiling - Non-destructive depth profiling of nanoscale heavy metal oxide thin films on Si substrates with medium energy ion scattering

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Principle and recommendations of MEIS analysis	1
5	MEIS analysis	2
6	MEIS spectra simulation	2
7	Reporting MEIS analysis results	5
Annex A (informative)	Interlaboratory test report	6
Annex B (informative)	List of MEIS spectra simulation program sources and a procedure of MEIS spectra simulation using PowerMeis	19
Annex C (informative)	Reliability of the IAEA electronic stopping power data	22
Annex D (informative)	Fitting parameters A, B, C, D from the IAEA database	24
Bibliography		29
