ISO 4333:2022-07 (E)

Textiles - Determination of reduction activity of specific proteins derived from pollen, mite and other sources on textile products

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principle 2

5 Specific proteins 2

6 Apparatus 2

7 Reagents and media 3

8 Preparation 4
8.1 Preparation of test specific protein suspension 4
8.2 Preparation of test specimens 4
8.3 Control test 5
8.3.1 General 5
8.3.2 Procedure of verification of the sensitivity of ELISA 5
8.3.3 Requirement for verification of the sensitivity of ELISA 5

9 Preparation of the specific protein calibration curve 6

10 Test procedure 6
10.1 Preparation of test specimen 6
10.2 Deposit of specific protein to the test specimens 6
10.3 Contacting time 6
10.4 Recovery of specific protein from the test specimens 6

11 Determination of the specific protein concentration 7

12 Calculation of the specific protein concentration and reduction rate 7

13 Repeatability and reproducibility 7

14 Test report 7

Annex A (informative) Specific protein derived from pollen and mite 9

Annex B (informative) ELISA assay reagents, reagents and buffer solutions 10

Annex C (informative) Enzyme-linked immunosorbent assay -- Sandwich ELISA test procedure 12

Annex D (informative) Specific protein calibration curve 13

Annex E (informative) Recovery rate 14

Annex F (informative) Interlaboratory test result 15

Annex G (informative) Repeatability and reproducibility 18
