Nanotechnologies - Performance characteristics of nanosensors for chemical and biomolecule detection - Part 1: Detection performance

Contents		Page
Foreword	iv
Introduction	v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Detection performance characteristics	3
4.1	General	3
4.2	Detection sensitivity	3
4.3	Detection specificity	4
4.4	Detection signal ratio	4
Annex A (informative)	Performance evaluation of a sensor	5
Annex B (informative)	Limitations of existing detection performance characteristics on nanosensor	7
Bibliography	10
