## Nanotechnologies - Performance characteristics of nanosensors for chemical and biomolecule detection - Part 1: Detection performance

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	<b>Scope</b> .....	1
2	<b>Normative references</b> .....	1
3	<b>Terms and definitions</b> .....	1
4	<b>Detection performance characteristics</b> .....	3
4.1	<b>General</b> .....	3
4.2	<b>Detection sensitivity</b> .....	3
4.3	<b>Detection specificity</b> .....	4
4.4	<b>Detection signal ratio</b> .....	4
<b>Annex A (informative) Performance evaluation of a sensor</b> .....		5
<b>Annex B (informative) Limitations of existing detection performance characteristics on nanosensor</b> .....		7
<b>Bibliography</b> .....		10
