ISO 24465:2023-01 (E)

Surface chemical analysis - Determination of the minimum detectability of surface plasmon resonance device

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms,definitionsandabbreviatedterms 1
3.1 Terms and definitions 1
3.2 Abbreviated terms 1

4 General information 1
4.1 Overview 1
4.2 White light excitation type 2
4.3 Laser illumination type 3

5 Outline of proposed method 3

6 Instrument of operation conditions 4
6.1 General 4
6.2 Alignment of optics including incident light 4
6.3 Sensor chip 4
6.4 Cleanness of optics 5
6.5 Temperature 5
6.6 Flow rate 5

7 Standard sample preparation 5

8 Data acquisition 6
8.1 Data collection and analysis 6
8.2 Recording of the data 8

Bibliography 9
