

DIN 50916-2:2023-07 (E)

Testing of copper alloys - Stress corrosion cracking test using ammonia - Part 2: Testing of components

Contents

Page

Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions.....	5
4 Apparatus	5
5 Reagents and test solutions	5
5.1 General	5
5.2 Test solutions	6
5.3 Preparation of test solutions.....	6
6 Test pieces and their preparation	6
6.1 Type	6
6.2 Number.....	7
6.3 Pretreatment	7
7 Test duration	7
8 Procedure	7
8.1 Standard test method.....	7
8.2 Deviating test methods for comparative material testing.....	8
8.3 Assessment and evaluation.....	8
8.3.1 General	8
8.3.2 Assessment method 1	8
8.3.3 Assessment method 2	8
9 Test report.....	8
Bibliography.....	10
