

DIN 51750-3:2023-05 (E)

Testing of mineral oils - Sampling - Pasty and solid materials

| Contents | | Page |
|----------------------------------------|-------------------------------------------------------------------|-------------|
| Foreword | | 3 |
| 1 | Scope | 4 |
| 2 | Normative references | 4 |
| 3 | Terms and definitions | 4 |
| 4 | Apparatus | 4 |
| 4.1 | Samplers | 4 |
| 4.2 | Sample containers | 5 |
| 5 | Preparation for sampling | 6 |
| 6 | Procedure | 6 |
| 6.1 | General | 6 |
| 6.2 | Taking single samples | 6 |
| 6.2.1 | Using a spatula | 6 |
| 6.2.2 | Using a ship auger (see Figure 1) | 6 |
| 6.2.3 | Using a channel type auger (see Figure 2) | 6 |
| 6.2.4 | Using the Allen Auerbach auger (see Figure 3) | 6 |
| 6.3 | Mainstream sampling | 7 |
| 6.4 | Sidestream sampling | 7 |
| 6.5 | Taking a representative sample during the discharge process | 7 |
| 7 | Information regarding sampling | 7 |
| Bibliography | | 8 |
