## Bunkering - Meter verification using master Coriolis mass flow meter

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Safety, health and environment during meter verification .....	3
5	Metrological requirements for master meter .....	4
5.1	General .....	4
5.2	Master meter requirements .....	4
5.3	Maintenance of master meter status .....	5
6	Meter verification process .....	5
6.1	General .....	5
6.2	Requirements .....	5
6.3	Meter verification setup .....	5
6.4	Procedures .....	8
6.4.1	Pre-test meeting .....	8
6.4.2	Steps and actions .....	8
6.5	Documentation .....	9
Annex A (informative)	Safety, health and environment .....	10
Annex B (informative)	Uncertainty budget for meter verification .....	13
Annex C (normative)	Critical performance parameter checklist for meter under test .....	14
Annex D (normative)	Meter verification report .....	15
Bibliography .....		17
