Bunkering - Meter verification using master Coriolis mass flow meter

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Safety, health and environment during meter verification	3
5	Metrological requirements for master meter	4
5.1	General	4
5.2	Master meter requirements	4
5.3	Maintenance of master meter status	5
6	Meter verification process	5
6.1	General	5
6.2	Requirements	5
6.3	Meter verification setup	5
6.4	Procedures	8
6.4.1	Pre-test meeting	8
6.4.2	Steps and actions	8
6.5	Documentation	9
Annex A (informative)	Safety, health and environment	10
Annex B (informative)	Uncertainty budget for meter verification	13
Annex C (normative)	Critical performance parameter checklist for meter under test	14
Annex D (normative)	Meter verification report	15
