## Non-destructive testing - Characteristics of focal spots in industrial X-ray systems - Part 1: Pinhole camera radiographic method

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Test equipment .....	2
4.1	Essential characteristics of the pinhole .....	2
4.2	Alignment and position of the pinhole camera .....	3
4.3	Position of the radiographic image detector .....	4
4.4	Requirements on the radiographic image detector .....	5
4.5	Image processing equipment for digital images .....	5
4.6	Loading factors .....	6
5	Measurement and determination of the focal spot size .....	6
5.1	Measurement procedure .....	6
5.2	Measurement with digital technique (preferred method) .....	7
5.3	Evaluation with digital technique using integrated line profiles (ILP) .....	8
5.4	Measurement of effective focal spot size visually using film radiographs .....	10
6	Classification and result of focal spot size measurement .....	11
Annex A (normative) Values for the classification of X-ray tube focal spot sizes .....		13
Bibliography .....		15
