## Petroleum measurement systems - Metering of viscous and high temperature liquids

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | iv          |
| Introduction ..... |  | v           |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....   | 1           |
| 3                  | Terms and definitions .....  | 1           |
| 4                  | Properties of high viscosity liquids .....                                     | 2           |
| 4.1                | Viscosity .....  | 2           |
| 4.2                | Reynolds number and flow profile .....   | 3           |
| 4.3                | Density .....  | 4           |
| 4.4                | Effect of temperature on viscosity .....                                       | 4           |
| 4.5                | Examples of high viscosity liquids and behaviour .....                         | 5           |
| 4.6                | Further considerations .....   | 6           |
| 5                  | Metering systems .....   | 6           |
| 5.1                | General .....  | 6           |
| 5.2                | Installation .....   | 7           |
| 5.3                | Heating .....  | 8           |
| 5.4                | System start-up and filling .....  | 9           |
| 6                  | Flowmeters .....   | 10          |
| 6.1                | Differential pressure meters .....   | 10          |
| 6.2                | Displacement meters .....  | 10          |
| 6.3                | Turbine meters .....   | 12          |
| 6.4                | Coriolis mass flowmeters .....   | 13          |
| 6.5                | Ultrasonic meters .....  | 14          |
| 7                  | Meter proving .....  | 16          |
| 7.1                | General .....  | 16          |
| 7.2                | Pipe provers .....   | 16          |
| 7.3                | Volumetric measures .....  | 17          |
| 7.4                | Gravimetric proving .....  | 18          |
| 7.5                | Master meter proving .....   | 18          |
| 8                  | Volumetric corrections .....   | 18          |
| 8.1                | Standard volume .....  | 18          |
| 8.2                | Thermal expansion and temperature effects .....                                | 19          |
| 8.2.1              | Overview .....   | 19          |
| 8.2.2              | Temperature effect on Coriolis meters .....                                    | 19          |
| 8.2.3              | Thermal expansion for ultrasonic meters and differential pressure meters ..... | 20          |
| 8.2.4              | Thermal expansion for displacement and turbine meters .....                    | 20          |
| Bibliography ..... |  | 21          |
