|------------------------------|---|-------------|
| European foreword            |   | 3           |
| Foreword                     |   | 4           |
| <b>1</b>                     | <b>Scope</b>  | <b>5</b>    |
| <b>2</b>                     | <b>Normative references</b>   | <b>5</b>    |
| <b>3</b>                     | <b>Terms and definitions</b>  | <b>5</b>    |
| <b>4</b>                     | <b>Method A – drop calorimetry</b>  | <b>6</b>    |
| 4.1                          | Principle   | 6           |
| 4.2                          | Apparatus   | 6           |
| 4.3                          | Standard reference materials  | 7           |
| 4.4                          | Containers  | 7           |
| 4.5                          | Test specimens  | 7           |
| 4.6                          | Calibration of the calorimeter  | 7           |
| 4.6.1                        | General   | 7           |
| 4.6.2                        | Electrical calibration  | 7           |
| 4.6.3                        | Calibration using standard reference material   | 8           |
| 4.7                          | Test procedures   | 8           |
| 4.7.1                        | General   | 8           |
| 4.7.2                        | Test without a container  | 8           |
| 4.7.3                        | Test with a container   | 9           |
| 4.7.4                        | Description of test   | 9           |
| 4.8                          | Calculations  | 10          |
| 4.8.1                        | General   | 10          |
| 4.8.2                        | Determination of the calorimetric calibration factor  | 10          |
| 4.8.3                        | Determination of mean specific heat capacity $\bar{C}_p$  | 10          |
| 4.8.4                        | Determination of the specific heat capacity $C_p$   | 11          |
| <b>5</b>                     | <b>Method B – differential scanning calorimetry</b>   | <b>11</b>   |
| 5.1                          | Principle   | 11          |
| 5.1.1                        | General   | 11          |
| 5.1.2                        | Stepwise heating method   | 12          |
| 5.1.3                        | Continuous heating method   | 12          |
| 5.2                          | Apparatus   | 13          |
| 5.3                          | Standard reference materials, SRM   | 13          |
| 5.4                          | Test specimens  | 13          |
| 5.5                          | Temperature calibration   | 13          |
| 5.6                          | Test procedure for the determination of $C_p$   | 14          |
| 5.6.1                        | General   | 14          |
| 5.6.2                        | Method 1: Measurements requiring the knowledge of the $K$ factor                                    | 14          |
| 5.6.3                        | Method 2: measurements requiring the use of a reference standard material (SRM)                     | 16          |
| 5.7                          | Calculation of results  | 19          |
| 5.7.1                        | Method requiring the knowledge of the $K$ factor  | 19          |
| 5.7.2                        | Method using an SRM   | 21          |
| <b>6</b>                     | <b>Test report</b>  | <b>22</b>   |
| <b>Annex A</b> (Informative) | <b>Drop calorimetry – determination of the calibration factor using standard reference material</b> | <b>23</b>   |
| <b>Annex B</b> (informative) | <b>Standard reference material</b>  | <b>25</b>   |
| <b>Annex C</b> (informative) | <b>Materials for calorimeter calibrations</b>   | <b>30</b>   |
| <b>Bibliography</b>          |   | <b>31</b>   |
