## Surface chemical analysis - Sample handling, preparation and mounting - Part 2: Documenting and reporting the preparation and mounting of specimens for analysis

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Symbols and abbreviated terms .....	2
5	Provenance information to be collected or retained .....	2
5.1	Information record .....	2
5.2	Verification or generation of sample information and analysis objectives .....	3
6	Information about sample handling and preparation for analysis to be documented and added to the sample information record .....	3
6.1	General .....	3
6.2	Adherence or exceptions to the general sample handling requirements .....	3
6.3	Description of ex situ sample handling .....	4
6.4	Method of mounting samples for analysis .....	4
6.5	In situ sample cleaning or other sample preparation or processing .....	5
6.6	Post analysis handling and storage .....	5
Annex A (normative)	Information on approaches, issues and good practices regarding sample handling and mounting in preparation for analysis .....	6
Annex B (normative)	Sources of contamination, sample handling and storage practices .....	18
Bibliography .....		24
