

# DIN EN ISO 16827:2025-09 (E)

## Non-destructive testing - Ultrasonic testing - Characterization and sizing of discontinuities (ISO 16827:2025)

---

<b>Contents</b>		<b>Page</b>
Foreword.....		iv
Introduction.....		v
<b>1</b> Scope.....		<b>1</b>
<b>2</b> Normative references.....		<b>1</b>
<b>3</b> Terms and definitions.....		<b>1</b>
<b>4</b> Principles of characterization of discontinuities.....		<b>1</b>
4.1 General.....		1
4.2 Requirements for surface condition.....		2
<b>5</b> Pulse-echo techniques.....		<b>2</b>
5.1 General.....		2
5.2 Location of discontinuity.....		2
5.3 Orientation of discontinuity.....		3
5.4 Assessment of multiple indications.....		3
5.5 Shape of discontinuity.....		4
5.5.1 Simple classification.....		4
5.5.2 Detailed classification.....		4
5.6 Maximum echo height of indication.....		5
5.7 Size of discontinuity.....		5
5.7.1 General.....		5
5.7.2 Maximum echo height techniques.....		5
5.7.3 Probe movement sizing techniques.....		6
5.7.4 Selection of sizing techniques.....		7
5.7.5 Sizing techniques with focusing probes.....		8
5.7.6 Use of mathematical algorithms for sizing.....		8
5.7.7 Special sizing techniques.....		8
<b>6</b> Through-transmission technique.....		<b>9</b>
6.1 General.....		9
6.2 Location of discontinuity.....		9
6.3 Evaluation of multiple discontinuities.....		9
6.4 Reduction of signal amplitude.....		10
6.5 Size of discontinuity.....		10
<b>Annex A</b> (normative) <b>Analysis of multiple indications</b> .....		<b>12</b>
<b>Annex B</b> (normative) <b>Techniques for the classification of discontinuity shape</b> .....		<b>14</b>
<b>Annex C</b> (normative) <b>Sizing technique using the maximum echo height</b> .....		<b>23</b>
<b>Annex D</b> (normative) <b>Sizing techniques using probe movement</b> .....		<b>25</b>
<b>Annex E</b> (informative) <b>Iterative sizing technique</b> .....		<b>37</b>
<b>Annex F</b> (informative) <b>Mathematical algorithms for the estimation of the actual size of a discontinuity</b> .....		<b>41</b>
<b>Annex G</b> (informative) <b>Examples of special sizing techniques</b> .....		<b>47</b>
<b>Bibliography</b> .....		<b>50</b>
