Rubber - Measurement of vulcanization characteristics using curemeters - Part 1: Introduction

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Basic principles	2
5	Types of curemeter	4
6	Apparatus	5
6.1	General	5
6.2	Dies	6
6.3	Die closure	7
6.4	Moving member	7
6.5	Movement	7
6.6	Stiffness measurement	8
6.7	Heating and temperature control	8
6.8	Calibration	8
7	Test piece	8
8	Vulcanization temperature	8
9	Conditioning	8
10	Procedure	9
10.1	Preparation for test	9
10.2	Loading the curemeter	9
11	Expression of results	9
Annex A (informative) Effect of thermal parameters on measured cure properties		10
Bibliography		13
