## Rubber - Measurement of vulcanization characteristics using curemeters - Part 2: Oscillating disc curemeter

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principle .....	1
5	Apparatus .....	2
5.1	General .....	2
5.2	Dies .....	3
5.3	Die closure .....	5
5.4	Disc .....	5
5.5	Disc oscillation .....	7
5.6	Torque-measuring system .....	7
5.6.1	Measurement .....	7
5.6.2	Recording .....	7
5.7	Heating and temperature control .....	8
6	Calibration .....	8
7	Test piece .....	8
8	Vulcanization .....	8
9	Conditioning .....	8
10	Procedure .....	9
10.1	Preparation for test .....	9
10.2	Loading the curemeter .....	9
11	Expression of results .....	9
11.1	General .....	9
11.2	Torque values .....	9
11.3	Times to different percentages of full cure .....	9
11.4	Scorch time .....	10
11.5	Cure rate index .....	10
12	Test report .....	10
Annex A (normative) Calibration schedule .....		11
Bibliography .....		13
