|---|-------------|
| Foreword.....   | iv          |
| Introduction.....   | v           |
| 1 Scope.....  | 1           |
| 2 Normative references.....   | 1           |
| 3 Terms and definitions.....  | 1           |
| 4 Principle.....  | 2           |
| 5 Testing condition.....  | 2           |
| 5.1 Low humidity air.....   | 2           |
| 5.2 High humidity air.....  | 2           |
| 6 Reagents and materials.....   | 2           |
| 7 Apparatus.....  | 2           |
| 8 Conditioning atmosphere for sampling.....                                       | 6           |
| 9 Preparation of specimens.....   | 6           |
| 10 Test procedure.....  | 6           |
| 10.1 Mounting of test specimens.....  | 6           |
| 10.2 Pretreatment process immediately before measurement.....                     | 6           |
| 10.3 Measurement process.....   | 6           |
| 11 Calculation.....   | 7           |
| 12 Test report.....   | 8           |
| Annex A (normative) Determination of the air flow rate for high humidity air..... | 9           |
| Annex B (informative) Interlaboratory test results.....                           | 11          |
| Annex C (informative) Example of a practical testing apparatus.....               | 15          |
| Annex D (informative) Example of an interpretation of the test result.....        | 16          |
| Bibliography.....   | 17          |
