

# DIN EN ISO 17829:2025-12 (E)

## Solid biofuels - Determination of length and diameter of pellets (ISO 17829:2025)

---

| <b>Contents</b>  |   | <b>Page</b> |
|--|---|-------------|
| <b>Foreword</b>  |   | iv          |
| <b>Introduction</b>  |   | vi          |
| <b>1 Scope</b>   |   | 1           |
| <b>2 Normative references</b>  |   | 1           |
| <b>3 Terms and definitions</b>   |   | 1           |
| <b>4 Principle</b>   |   | 2           |
| <b>5 Apparatus</b>   |   | 2           |
| <b>6 Sample preparation</b>  |   | 4           |
| 6.1  | General   | 4           |
| 6.2  | Preparation requirements for pellet diameter  | 4           |
| 6.3  | Preparation requirements for pellet length and pellet length fractions                            | 4           |
| <b>7 Procedure</b>   |   | 4           |
| 7.1  | Determination of the parameters to be analysed  | 4           |
| 7.2  | Determination of the pellet diameter class  | 5           |
| 7.3  | Measuring the length of an individual pellet  | 5           |
| 7.3.1  | General   | 5           |
| 7.3.2  | Option A: Measuring the length of an individual pellet with a measuring block<br>(5.2)            | 5           |
| 7.3.3  | Option B: Measuring the length of an individual pellet with a calliper                            | 6           |
| 7.4  | Determination of the number of pellets above a maximum length                                     | 6           |
| 7.5  | Determination of the share of pellets > 40 mm and the length of the longest pellet                | 6           |
| 7.6  | Determination of the share of pellets of any other specified length, including pellets<br>< 10 mm | 7           |
| 7.7  | Determination of the average length of pellets  | 7           |
| <b>8 Calculations</b>  |   | 7           |
| 8.1  | Pellet diameter class   | 7           |
| 8.2  | Share of a specified fraction of pellets  | 7           |
| 8.2.1  | General   | 7           |
| 8.2.2  | Share of fractions including coarse pellet fines  | 8           |
| 8.2.3  | Share of pellets > 40 mm  | 8           |
| 8.3  | Average pellet length   | 9           |
| <b>9 Performance characteristics</b>   |   | 9           |
| <b>10 Test report</b>  |   | 9           |
| <b>Annex A (informative) Devices for the determination of the length of pellets with a diameter of<br/>8 mm or above</b> |   | <b>11</b>   |
| <b>Annex B (informative) Comparative studies for determination of the pellet length</b>                                  |   | <b>13</b>   |
| <b>Annex C (informative) Example of a construction plan for a measuring block</b>  |   | <b>15</b>   |
| <b>Bibliography</b>  |   | <b>18</b>   |
