Adhesives - Guideline for separating adhesively bonded joints enabling repair and improving recycling

Contents

Page

- Foreword.....iv
- Introduction.....v
- 1 Scope.....1
- 2 Normative references.....1
- 3 Terms and definitions.....1
- 4 Procedure.....1
 - 4.1 Systematics.....1
 - 4.2 Mechanical methods for separating adhesively bonded joints.....2
 - 4.2.1 Cutting.....2
 - 4.2.2 Peeling.....2
 - 4.2.3 Stretching of the adhesive carrier.....3
 - 4.2.4 Elongation of the adherends.....3
 - 4.3 Physical methods for separating adhesively bonded joints.....3
 - 4.3.1 Temperature effects.....3
 - 4.3.2 Electricity.....3
 - 4.3.3 Solvents.....4
 - 4.4 Chemical methods for separating adhesively bonded joints.....4
 - 4.4.1 Expanding and blowing agents.....4
 - 4.4.2 Decomposition of the adhesive.....4
 - 4.4.3 Decomposition of the adherent.....4
- Annex A (informative) Debonding — Established examples.....5
- Bibliography.....9
