ISO 6145-6:2003-05 (E)

Gas analysis - Preparation of calibration gas mixtures using dynamic volumetric methods - Part 6: Critical orifices

Contents

Page

1 Scope 1

2 Normative references 1

3 Principle 1

4 Application to preparation of gas mixtures 2
4.1 Description of the orifice system and the experimental procedure 2
4.2 Area of validity 4
4.3 Operating conditions 4

5 Calculation of operating parameters and results 4
5.1 Selection of suitable orifice systems 4
5.2 Calculation of volume fraction 5
5.3 Sources of uncertainty 5
5.4 Uncertainty of volume fraction 6

Annex A (informative) Premixed gases for preparation of mixtures of high dilution 7

Annex B (informative) Practical hints 9
