

ISO 14595:2003-06 (E)

Microbeam analysis - Electron probe microanalysis - Guidelines for the specification of certified reference materials (CRMs)

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Preparation of the research material		2
5 Heterogeneity of material		2
6 Stability of the research material		8
7 Determination of the chemical composition of CRMs		9
8 CRM specimen preparation, packaging, transportation and storage		9
9 CRM certificate		10
Annex A (informative) Spreadsheet instructions for the statistical evaluation of heterogeneity data		11
Annex B (normative) Suggested Classification of CRMs for EPMA		14
Annex C (informative) Example of a certificate for EPMA CRMs		15
Bibliography		16
