ISO 18265:2003-11 (E)

Metallic materials - Conversion of hardness values

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Principles of conversion 2

4 Application of conversion tables 2
4.1 General 2
4.2 Converting values 6
4.3 Designation of conversion results 8
4.4 Notes on use of conversion tables 9

Annex A (informative) Conversion table for unalloyed, low-alloy steels and cast iron 10

Annex B (informative) Conversion tables for steels for quenching and tempering 15

Annex C (informative) Conversion tables for cold working steels 33

Annex D (informative) Conversion tables for high speed steels 44

Annex E (informative) Conversion tables for hardmetals 56

Annex F (informative) Conversion tables for non-ferrous metals and alloys 60
