ISO 6145-1:2003-11 (E)

Gas analysis - Preparation of calibration gas mixtures using dynamic volumetric methods - Part 1: Methods of calibration

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Calibration methods 2
4.1 General 2
4.2 Description of primary or potentially primary measuring devices 4
4.3 Measurements on the final mixture 12

5 Techniques for preparation of gas mixtures calibrated by the methods described in Clause 4 13
5.1 General 13

Annex A (normative) Volume measurement by weighing the water content 19

Annex B (informative) Description of secondary devices which need calibration against primary devices 23
