## Rubber, raw synthetic - Determination of the molecular-mass distribution of solution polymers by gel permeation chromatography

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	1
3	Principle .....	1
4	General .....	1
5	Reagents and materials .....	2
6	Apparatus .....	3
7	Analytical conditions .....	4
8	Procedure .....	4
9	Expression of results .....	7
10	Precision (only for instrumental software procedure) .....	8
11	Test report .....	9
Annex A (informative) Molecular-mass parameters determined by instrumental software .....		11
Annex B (informative) Calculation of molecular-mass parameters by manual procedure .....		15
Annex C (informative) Comparison of results obtained by automatic procedure (software) and manual procedure .....		19
Annex D (informative) Guidance for using precision results .....		20
