ISO 4526:2004-05 (E)

Metallic coatings - Electroplated coatings of nickel for engineering purposes

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Information to be supplied to the electroplater 2

5 Designation 3

6 Requirements 6

7 Sampling 8

Annex A (informative) Typical composition and operating conditions of Watts and nickel sulfamate solutions, and mechanical properties of nickel electrodeposited from those solutions 9

Annex B (informative) Test methods for determining thickness 10

Annex C (normative) Hot water porosity test 11

Annex D (normative) Modified ferroxyl test 12

Annex E (informative) Additional information for different applications 13

Bibliography 14
