## Nuclear facilities - Criteria for the design and operation of ventilation systems for nuclear installations other than nuclear reactors

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Functions ensured by the ventilation system .....	5
5	Safety aspects of ventilation systems .....	6
5.1	General principles .....	6
5.2	Risk assessment procedure .....	6
6	Principles of containment of radioactive material .....	8
6.1	General requirements .....	8
6.2	Specific requirements associated with containment systems .....	12
6.3	Additional arrangements to limit the risk of spread of radioactive contamination .....	13
6.4	Air-cleaning devices .....	13
7	Principles of prevention of other risks .....	13
7.1	Prevention of risks linked to releases of heat, gas or toxic vapours .....	13
7.2	Prevention of risks linked to deposition of matter in ventilation ducts .....	14
7.3	Prevention of fire hazard .....	14
7.4	Consideration of external hazards .....	17
8	Methodology for dimensioning ventilation systems .....	18
8.1	Classification of the installation into working areas .....	18
8.2	Requirements concerning basic ventilation parameters .....	19
8.3	Elaboration of the ventilation diagram and calculation of the pressure drops .....	26
9	Recommendations concerning the management and operation of ventilation systems .....	27
9.1	Organization and operating procedures .....	27
9.2	Technical operating instructions .....	27
9.3	Operational management issues .....	27
9.4	Test procedures and maintenance .....	28
9.5	Monitoring of the ventilation system .....	30
9.6	Control of ventilation systems to prevent fire hazards .....	30
10	Control and instrumentation .....	32
10.1	Control .....	32
10.2	Instrumentation .....	32
10.3	Alarms .....	33
Annex A (informative)	Example of classification of working areas according to radiological contamination hazard .....	34
Annex B (informative)	Example of classification of types of ventilation, according to radiological contamination hazard -- Associated recommended ventilation configurations .....	36
Annex C (informative)	Requirements for ventilation filters .....	41
Bibliography .....		47
