# ISO/TR 18392:2005-12 (E)

## Surface chemical analysis - X-ray photoelectron spectroscopy - Procedures for determining backgrounds

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Terms and definitions ..... 1

3 Symbols and abbreviated terms ..... 1

4 Types of background in XPS ..... 1

5 Removal of X-ray satellites from electron spectra ..... 2

6 Estimation and removal of inelastic electron scattering from electron spectra ..... 2
6.1 General Information ..... 2
6.2 Procedures to account for inelastic electron scattering ..... 2
6.2.1 Introduction ..... 2
6.2.2 Estimation of the linear background and its removal ..... 3
6.2.3 Integral background removal ..... 3
6.2.4 Removal based on the electron inelastic-scattering cross-section ..... 4
6.3 Procedures accounting for both inelastic and elastic scattering ..... 5
6.4 Less commonly used procedures ..... 5
6.5 Role of surface and core-hole effects in background determination ..... 6
6.6 Determining the background for inhomogeneous materials ..... 6

7 Comparisons of procedures for removing effects of inelastic electron scattering from electron spectra ..... 7

Bibliography ..... 8
