## Surface chemical analysis - X-ray photoelectron spectroscopy - Procedures for determining backgrounds

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Terms and definitions .....	1
3	Symbols and abbreviated terms .....	1
4	Types of background in XPS .....	1
5	Removal of X-ray satellites from electron spectra .....	2
6	Estimation and removal of inelastic electron scattering from electron spectra .....	2
6.1	General Information .....	2
6.2	Procedures to account for inelastic electron scattering .....	2
6.2.1	Introduction .....	2
6.2.2	Estimation of the linear background and its removal .....	3
6.2.3	Integral background removal .....	3
6.2.4	Removal based on the electron inelastic-scattering cross-section .....	4
6.3	Procedures accounting for both inelastic and elastic scattering .....	5
6.4	Less commonly used procedures .....	5
6.5	Role of surface and core-hole effects in background determination .....	6
6.6	Determining the background for inhomogeneous materials .....	6
7	Comparisons of procedures for removing effects of inelastic electron scattering from electron spectra .....	7
Bibliography .....		8
