

ISO 17500:2006-04 (E)

Aluminium oxide used for the production of primary aluminium - Determination of attrition index

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Principle	1
4	Apparatus	1
5	Sample handling and preparation	3
5.1	Reference alumina	3
5.2	Test sample	3
6	Procedure	3
6.1	Flow calibration	3
6.2	Attrition procedure for test sample and reference alumina	6
6.3	Particle size distribution analysis	6
7	Calculation and reporting of results	6
8	Precision	7
9	Quality control	7
10	Test report	7
Annex A (informative) Results of test programme		8
Bibliography		9
