Rubber and rubber products_ - Guidance on the application of statistics to physical testing

Contents

Page

| | |
|--|-----|
| Foreword..... | vi |
| Introduction | vii |
| 1 Scope | 1 |
| 2 References..... | 1 |
| 3 Terms and definitions..... | 1 |
| 4 Symbols | 4 |
| 5 Limitations of test results | 5 |
| 5.1 Variability..... | 5 |
| 5.2 Accuracy, trueness and precision | 6 |
| 5.3 Relevance and significance..... | 7 |
| 6 Distribution of results and measures of central tendency | 7 |
| 6.1 Principles..... | 7 |
| 6.2 Methodology..... | 8 |
| 6.2.1 Types of distribution | 8 |
| 6.2.2 Measures of central tendency | 12 |
| 6.2.3 Measures of dispersion..... | 15 |
| 6.2.4 Transformation to normal distribution | 16 |
| 6.2.5 Test of departure from normality | 17 |
| 6.3 Applications to rubber testing..... | 20 |
| 6.3.1 General..... | 20 |
| 6.3.2 Tensile testing..... | 20 |
| 6.3.3 Fatigue | 21 |
| 6.3.4 Conversion to normal distribution..... | 24 |
| 6.3.5 Other uses of the median..... | 25 |
| 7 Confidence limits and significant difference | 26 |
| 7.1 Principles..... | 26 |
| 7.2 Methodology..... | 26 |
| 7.2.1 Confidence limits and confidence intervals | 26 |
| 7.2.2 Significant difference | 31 |
| 7.3 Applications to rubber testing..... | 35 |
| 7.3.1 General..... | 35 |
| 7.3.2 Confidence limits and specification limits..... | 35 |
| 7.3.3 Comparison of results..... | 36 |
| 8 Ranking methods..... | 37 |
| 8.1 Principles..... | 37 |
| 8.2 Methodology..... | 37 |
| 8.2.1 Friedman's test | 37 |
| 8.2.2 The outside count test..... | 39 |
| 8.3 Applications to rubber testing..... | 39 |
| 9 Criteria for rejecting outliers | 40 |
| 9.1 Principles..... | 40 |
| 9.2 Methodology..... | 41 |
| 9.2.1 General..... | 41 |
| 9.2.2 Dixon's test..... | 41 |
| 9.2.3 Cochran's test for variance | 43 |
| 9.3 Applications to rubber testing..... | 45 |
| 9.3.1 General..... | 45 |

| | | |
|--------|--|----|
| 9.3.2 | Dixon's test applied to individual results | 45 |
| 9.3.3 | Cochran's variance test..... | 46 |
| 9.3.4 | Dixon's test applied to a group of mean values | 47 |
| 10 | Analysis of variance (ANOVA) | 47 |
| 10.1 | Principles | 47 |
| 10.2 | Methodology..... | 48 |
| 10.2.1 | General | 48 |
| 10.2.2 | One factor with an equal number of replicates..... | 48 |
| 10.2.3 | One factor with a variable number of replicates..... | 49 |
| 10.2.4 | Two (and over) factor analysis of variance | 50 |
| 10.3 | Applications to rubber testing | 50 |
| 11 | Regression analysis | 54 |
| 11.1 | Principles | 54 |
| 11.2 | Methodology..... | 55 |
| 11.2.1 | General | 55 |
| 11.2.2 | Linear least squares | 55 |
| 11.2.3 | Quadratic least squares | 56 |
| 11.2.4 | Cubic least squares | 56 |
| 11.3 | Applications to rubber testing | 56 |
| 11.3.1 | General | 56 |
| 11.3.2 | The effect of temperature on compression set..... | 56 |
| 11.3.3 | Effect of ageing on tensile strength | 58 |
| 11.3.4 | Temperature of retraction test..... | 59 |
| 12 | Uncertainty of measurement..... | 60 |
| 12.1 | Principles | 60 |
| 12.2 | Methodology..... | 61 |
| 12.2.1 | Compilation of a single value for uncertainty | 61 |
| 12.2.2 | Random uncertainty (U_r) | 61 |
| 12.2.3 | Systematic uncertainty (U_s) | 62 |
| 12.2.4 | Deviation of a single value of total uncertainty | 63 |
| 12.2.5 | Reporting of results | 63 |
| 12.3 | Applications to rubber testing | 63 |
| 13 | Sampling | 64 |
| 13.1 | Principles | 64 |
| 13.2 | Methodology..... | 65 |
| 13.2.1 | General | 65 |
| 13.2.2 | Acceptable quality level and limiting quality | 65 |
| 13.2.3 | Assessment of nonconformity | 65 |
| 13.2.4 | Inspection levels | 66 |
| 13.2.5 | Plans for sampling by attributes | 66 |
| 13.2.6 | Random sampling | 67 |
| 13.3 | Applications to rubber testing | 68 |
| 14 | Number of test pieces..... | 68 |
| 14.1 | Principles | 68 |
| 14.2 | Methodology..... | 69 |
| 14.3 | Applications to rubber testing | 69 |
| 14.3.1 | General | 69 |
| 14.3.2 | Refinement of confidence limits..... | 69 |
| 14.3.3 | Refinement of a pass/fail status | 70 |
| 15 | Expression of results..... | 70 |
| 15.1 | Principles | 70 |
| 15.2 | Methodology..... | 70 |
| 15.2.1 | The test report | 70 |
| 15.2.2 | Rounding..... | 72 |
| 15.3 | Applications to rubber testing | 73 |
| 15.3.1 | General | 73 |
| 15.3.2 | Construction of a histogram | 73 |

| | | |
|--------------|--|-----|
| 15.3.3 | Examples of rounding | 74 |
| 16 | Precision statements | 74 |
| 16.1 | General | 74 |
| 16.2 | Principles | 74 |
| 16.3 | Methodology | 75 |
| 16.4 | Applications to rubber testing | 77 |
| 17 | Design of experiments | 78 |
| 17.1 | General information and principles | 78 |
| 17.1.1 | General information | 78 |
| 17.1.2 | Principles | 79 |
| 17.2 | Methodology | 92 |
| 17.2.1 | General | 92 |
| 17.2.2 | Descriptive experiments | 92 |
| 17.2.3 | Comparative experiments | 93 |
| 17.2.4 | Response experiments | 95 |
| 17.3 | Applications to rubber testing | 95 |
| 17.3.1 | Descriptive experiments | 95 |
| 17.3.2 | Comparative experiments | 97 |
| 17.3.3 | Response experiments | 101 |
| 18 | Statistical quality control | 105 |
| 18.1 | Principles | 105 |
| 18.2 | Methodology | 106 |
| 18.2.1 | General | 106 |
| 18.2.2 | Control charts by attributes | 106 |
| 18.2.3 | Control charts by variables | 106 |
| 18.3 | Applications to rubber testing | 108 |
| 18.3.1 | General | 108 |
| 18.3.2 | Control charts | 108 |
| 18.3.3 | Cusum chart | 111 |
| Annex A | (informative) Mathematical form of the distribution functions referenced in this International Standard | 115 |
| Annex B | (informative) Additional forms of mean value | 117 |
| Annex C | (informative) Inter-relationships for measures of central tendency in the double exponential and Weibull distributions | 118 |
| Annex D | (informative) Equation for the calculation of standard deviation | 119 |
| Annex E | (informative) Construction of Weibull probability paper | 121 |
| Annex F | (informative) Equations for the calculation of Student's <i>t</i> -values | 122 |
| Annex G | (informative) Analysis of variance | 123 |
| Annex H | (informative) Equations for the calculation of regression coefficients | 127 |
| Annex I | (informative) The intercal method | 129 |
| Bibliography | | 130 |
