DIN EN ISO 7214:2007-09 (E)

Cellular plastics - Polyethylene - Methods of test (ISO 7214:2007)

Contents

Page

1 Scope .....

2 Normative references .....

3 Test specimens .....

4 Conditioning .....

5 Atmosphere during test .....

6 Measurement of dimensions .....

7 Mandatory tests .....
7.1 Apparent density .....
7.2 Compressive stress .....
7.3 Compression set .....
7.4 Tensile strength and elongation .....
7.5 Dimensional stability at elevated temperature .....
7.6 Water absorption .....
7.7 Burning characteristics .....

8 Optional tests .....
8.1 Dynamic cushioning performance .....
8.2 Compressive creep .....
8.3 Thermal conductivity .....
8.4 Water-vapour transmission .....
8.5 Dynamic stiffness .....
8.6 Cell count .....
8.7 Tear strength .....
8.8 Annex A (normative) Cell count procedure .....

. 3 11 11 13 Foreword .....

Permanent set after repeated compression .....

Test report .....
