

ISO 21238:2007-04 (E)

Nuclear energy - Nuclear fuel technology - Scaling factor method to determine the radioactivity of low- and intermediate-level radioactive waste packages generated at nuclear power plants

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Terms and definitions	1
3	Principle	3
4	Sampling	3
5	Evaluation methodology for scaling factor	4
Annex A (informative) Practices and examples of application of scaling-factor method		8
Bibliography		23
