

ISO 21238:2007-04 (E)

Nuclear energy - Nuclear fuel technology - Scaling factor method to determine the radioactivity of low- and intermediate-level radioactive waste packages generated at nuclear power plants

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Terms and definitions	1
3 Principle	3
4 Sampling	3
5 Evaluation methodology for scaling factor	4
Annex A (informative) Practices and examples of application of scaling-factor method	8
Bibliography	23
