

DIN EN ISO 10426-6:2008-1 (E)

Petroleum and natural gas industries – Cements and materials
for well cementing – Part 6: Methods for determining the static gel strength
of cement formulations (ISO 10426-6:2008); English version
EN ISO 10426-6:2008

Contents		Page
Foreword.....		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Sampling	6
5	Preparation	6
6	Test method using rotating-type static gel strength apparatus	7
7	Test method using ultrasonic-type static gel strength apparatus	8
8	Test method using intermittent rotation-type static gel strength apparatus	10
Annex A (informative) Critical static gel strength — Additional information.....		12
